

Magnesium alloy electric

Wheelchair

MN-P15

Focus on innovation and high quality

Magnesium alloy frame

Rare earth energy-saving motor

LG Li-ion Cell

Only 15KG

Easy to carry

Ultra-low power consumption

Electromagnetic brake

2 seconds folding

15KG

Light

Anti-corrosion

Quake-proof,
noise reduction

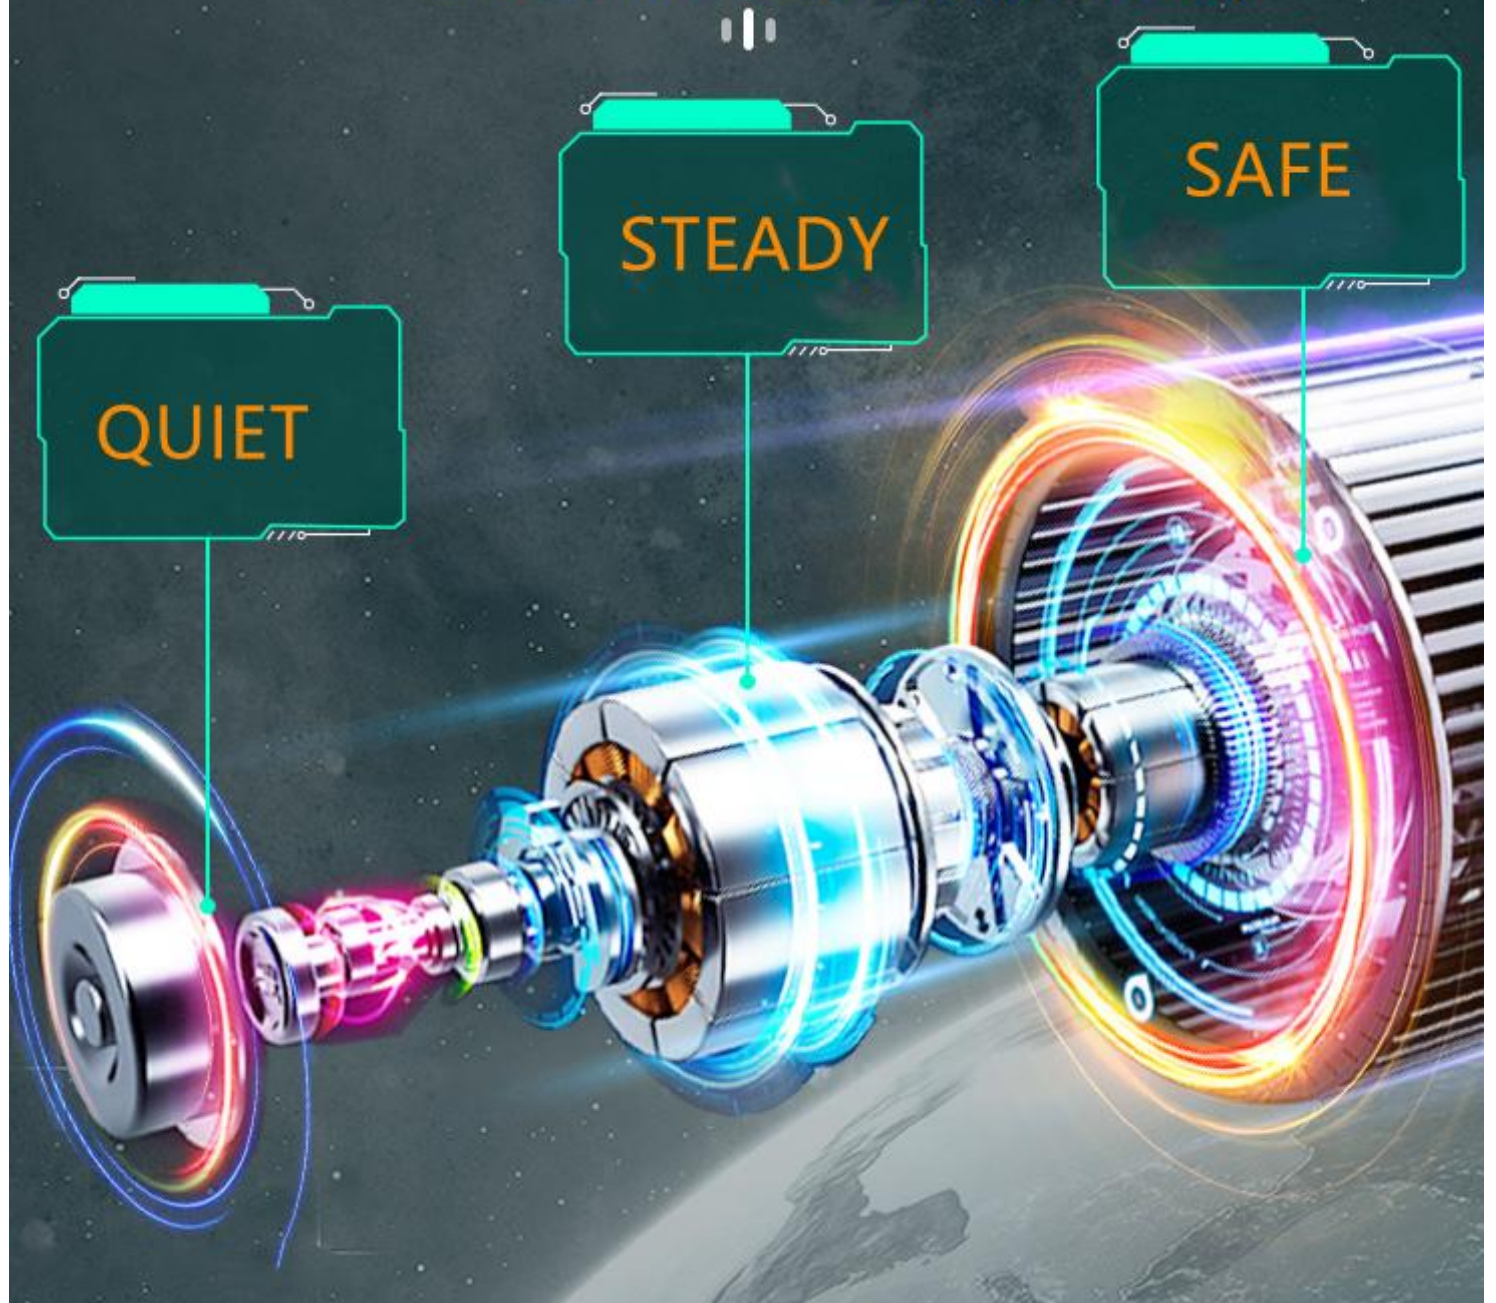

Easy to clean

Mg alloy has higher strength and greater impact load bearing capacity than aluminum alloy and iron, quake-proof and noise reduction, used in the field of transportation, aerospace and military industry

Super Energy Saving Rare Earth Motor

Small size, light weight, high efficiency
More than 20% energy saving

PG/Micon Controller

Added the old man easy to learn mode

More sensitive steering
Power off protection function

Joystick

Power switch

Battery display

Horn

Speed +/-

Back Control

controlled by escort

Right

Left

available to switch left and right

Intelligent Braking System

RELEASE → STOP

no slip

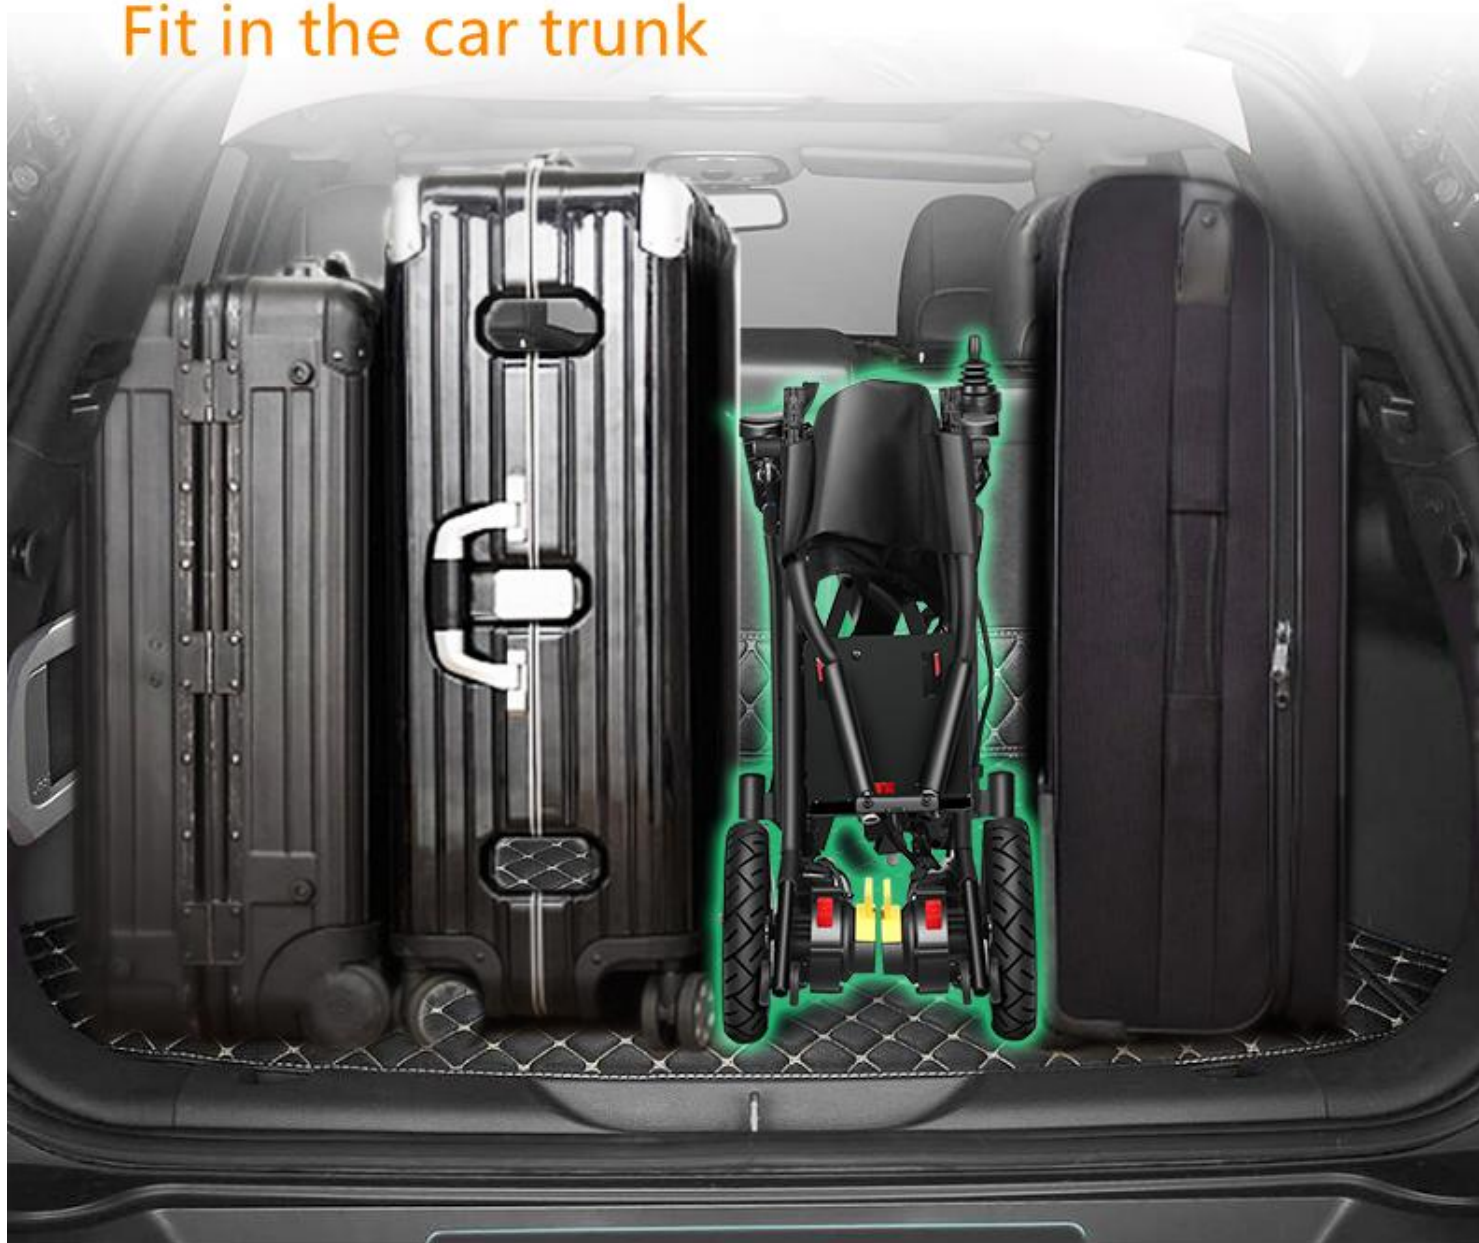

*electromagnetic
brake*

Easy to Carry, Easy Boarding

Folding Size 70x34x73cm

Fit in the car trunk

QUICK FOLDING

MORE DETAILS

**Intimate
hand design**

Rear anti-tip roller

The length of anti-tip roller can be adjusted

Drop safety belt

Length adjustable

**Driving/backing
alarm horn aound**

**Intimate water
cup holder**

Non-slip footrest

Detachable

Specification:

Model:	MN-P15
Material:	Magnesium alloy
Overall size:	103(L) * 53(W)* 94(H)
Seat Width:	45cm
Seat Height:	52cm
Seat Depth:	42cm
Backrest Height:	42cm
Wheel:	F 7'' PU R 10'' PU
Speed:	1-6 Km/h
Battery:	24V 10Ah
Range:	15Km
Motor:	24V DC 200W*2
Loading capacity:	120Kg
Net weight:	15Kg
Gross Weight:	19Kg
Package:	73.5x39.5x78cm
